

INDUS STATE UNIVERSITY

Courses and Syllabus

Fictional university knowledge-base document for AI/RAG chatbot testing.

Programs

- The fictional university offers B.Tech Computer Science, B.Tech Information Technology, BBA, BCA, MBA, and selected postgraduate programs.
- B.Tech programs normally have eight semesters over four academic years.
- Each program has a published curriculum containing theory, laboratory, project, and elective components where applicable.

B.Tech Computer Science Core Areas

- Programming and Data Structures.
- Database Management Systems.
- Computer Networks.
- Operating Systems.
- Software Engineering.
- Web Development.
- Artificial Intelligence and Machine Learning.
- Cyber Security.

Credits and Registration

- Each course has a defined credit value in the curriculum.
- Students should complete prerequisite courses before registering for dependent courses.
- Course registration is completed through the student portal during the notified registration window.
- Elective availability depends on department scheduling and minimum enrollment.

Syllabus Questions

- Where can I find the syllabus? In the Academic section of the student portal or department resource area.
- How many semesters are in B.Tech? Eight semesters.
- Can I change an elective? Changes are allowed only during the notified course-registration period and subject to approval.
- Who handles course-related questions? The concerned department or academic coordinator.
