

INDUS STATE UNIVERSITY

Results and Grading

Fictional university knowledge-base document for AI/RAG chatbot testing.

Grading

- Courses are graded using the university-approved grading scale.
- Grades reflect performance in assessments, practical work, projects, and examinations as applicable.
- Grade points are used for calculation of semester and cumulative performance.

CGPA and SGPA

- SGPA represents performance for a semester based on registered course credits and grade points.
- CGPA represents cumulative academic performance across completed semesters according to university rules.
- Students can view academic performance through the student portal after results are published.

Results

- Semester results are published through the student portal.
- Students should verify their marks and grades after publication.
- Result discrepancies should be reported to the Examination Office within the notified period.

Revaluation and Scrutiny

- Eligible students may apply for revaluation or scrutiny within the announced deadline.
- Applications require the prescribed fee and course details.
- Students should retain the acknowledgement of their application.

Common Questions

- What is CGPA? It is the cumulative grade-point performance across completed semesters.
- Where can I see my result? On the student portal.
- Can I request revaluation? Eligible students may apply during the notified period.
- What if my marks are incorrect? Report the discrepancy to the Examination Office using the prescribed process.
